Commissioner for Patents

The applicant's reply brief of January 16, 2007 has been received and entered into the record. The examiner points out that claim 1 lacks any recitation relating to the Young's modulus of the substrate as asserted by the applicant on page 3/5 of the reply. The examiner also points out that claim 5 includes a limitation relating to the substrate being polycarbonate and having a thickness of about 0.5 mm, and the Tajima et al. reference uses polycarbonate and has a thickness of 0.5 mm as disclosed in table 5 of the JP 2000-311381 reference.
